Since the club is dead and people tell us they are only still in it because of the people they met and like to meet we will soon (after KT arrest and the official bankruptcy of the club) we will offer free (cost only) mega ex member events so that you can still meet the people you love. In the last update the cult leader ask you subliminally to give up your payment checks. If the club is striving that much why does he need to beg you for your money And he still sells Magic!

So lets meet build a new fair and honest community of happy and healthy people and all basically for free

Anybody that is interested in a ex member and member meeting for a meet and great and fun motivational seminars (charge will be cost only) to meet the people again you learned to love without some crook trying to sell you tools and upgrades please write to meetingofchampions@gmail.com Lets have fun together learn the secrets of fun, happiness and success and meet the champions you learned to love already and make new connections and contacts We see you there

Mini Read

On September 18th 2012, Leonard Coldwell informed his readers that he wanted to start a new club, which would be “*Cost only*” to those who wanted to join, attend or have what they had once in GIN.

Ironically he wrote “*Anybody that is interested in an ex-member meeting for a meet and great and fun motivational seminars (charge will be cost only) to meet the people again you learned to love without some crook trying to sell you tools and upgrades...*”.

And now he has his new **IBMS Master’s Society** club, which he sells you a membership of \$499 to join and you pay \$89 a month dues. Hmm...not copying GIN at all are we!

The website clearly states that upgrades **will be fee based** only! You have to put in the work, which means attending [expensive as hell] events, buying tools, travelling, hotels, etc, etc, etc.... Kind of contradictory, but then, greed doesn’t care who it is master of. It is happy to dwell in any dark host whose only aim in life is to fleece the sheep of their wool.
